

Delock USB 2.0 Switch 2 PC to 1 device

Description

This USB switch by Delock allows to share a single USB 2.0 peripheral device with two different computer systems. This avoids the cost of purchasing multiple peripherals or the hassle of swapping cables from one system to another.

Memory function

Port selection works via a button, regardless if one of the computer systems is disconnected. The last setting is saved, even if the unit is shut down and restarted.

Secure mounting

A built-in magnet allows the switch to be attached to suitable metal surfaces; alternatively, the case has an option for wall mounting with screws.

Item no. 11491

EAN: 4043619114917

Country of origin: Taiwan,
Republic of China

Package: Retail Box

Specification

- Connectors:
 - Input:
 - 2 x USB 2.0 Type-B female
 - Output:
 - 1 x USB 2.0 Type-A female
- 1 x button with LED indicator for PC 1 or PC 2
- USB Bus powered (no additional power supply required)
- Data transfer rate up to:
 - Hi-Speed 480 Mbps,
 - Full-Speed 12 Mbps,
 - Low-Speed 1.5 Mbps
- Downwards compatible to USB 1.1
- Plug & Play
- OS independent, no driver installation necessary
- Plastic housing
- Wall mounting integrated in the housing
- Magnetic bottom
- Colour: black

- Dimensions (LxWxH): ca. 106 x 56 x 25 mm

System requirements

- PC or laptop with a free USB Type-A port
- Connection cables

Package content

- Switch
- 2 x cable USB A male to USB B male, length ca. 1.8 m
- User manual
