

Delock Ergonomic USB Mouse vertical - RGB Illumination

Description

This wired vertical USB mouse by Delock is suitable for right handers and can be connected to a free USB port of a PC or laptop. Due to its ergonomic design, the hand remains in upright position and does not have to be turned. Thus the mouse can be used preventive or with starting pain e.g. RSI (Repetitive-Strain-Injury). There are four adjustable DPI levels to adapt the sensitivity of the mouse.

RGB Touch function

The mouse stands out due to its RGB touch function. By touching the fingerprint symbol on the topside of the mouse, there are four different colour modes which can be set. The upper edge will illuminate in the desired colour.

Item no. 12597

EAN: 4043619125975

Country of origin: China

Package: Retail Box
