

Delock Antenna Cable F Jack > F Plug with phantom power 5 V via USB 22 cm

Description

This coaxial cable is used to feed a 5 V supply voltage to operate e.g. an active DVB-T/DVB-T2 antenna.

This voltage is typically performed via the antenna cable. Some TV devices do not provide 5 V supply voltage via the antenna input. In these cases, active antennas are previously supplied by a conventional power supply with voltage. Using the Delock Antenna cable with 5 V phantom power enables direct power supply through a USB port of the TV device. Due to the existing USB Type-A jack on the cable that carries signals and voltage, this USB connection can continue to use.

22 cm

Item no. 13006

EAN: 4043619130061

Country of origin: Taiwan,
Republic of China

Package: Zip poly bag

Specification

- Connector:
F jack > F plug
USB Type-A plug, USB Type-A jack
- Cable colour: black
- Cable length: ca. 22 cm
- Cable length USB: ca. 35 cm

System requirements

- Device with free F connector

Package content

- Antenna cable

[illegible]

Interface

| | |
|--------------|---------------------------|
| Connector 1: | 1 x USB 2.0 Type-A male |
| Connector 2: | 1 x USB 2.0 Type-A female |
| connector 3: | 1 x IEC male |
| connector 4: | 1 x IEC female |

Technical characteristics

| | |
|------------|-------------|
| Impedance: | 50 Ω |
