Delock USB Type-C™ Splitter (DP Alt Mode) to 2 x DisplayPort MST / VXP

Description

This splitter by Delock is suitable for the connection of two DisplayPort monitors to a computer with **USB-C™** interface and **DisplayPort alternate mode** support. Two monitors can be operated simultaneously at the outputs.

Multi-Stream Transport (MST)
The product is a Multi-Stream Transport (MST) hub and supports the **extended desktop** configuration of DisplayPort. In **Windows**, the connected monitors are controlled individually, and can be combined into one large display.

VXP technology
If the connected computer does not support MST, the **ViewXpand™** technology is activated. Multiple monitors with the same resolution are recognized as **one single large display**, allowing desktop display on multiple external monitors, e.g. in **Mac OS**. The maximum resolution is **3840 x 1080** @ 60 Hz.

Note

Only one additional external monitor can be connected to MacBook devices with M1 chipset.

Item no. 87754

EAN: 4043619877546

Country of origin: China

Package: Retail Box

Specification

- Connectors:
  Input: 1 x USB Type-C™ male
  Output: 2 x DisplayPort female
- Chipset: VMM5220
- DisplayPort 1.4 specification
- Supports Display Stream Compression 1.2 (DSC)
- Supports HDR
- Supports HDCP 1.4 and 2.2
- Maximum resolution (depending on the system and the connected hardware):
